Audio Conferencing

International Access Numbers

Last Revised: 7/11/2017

How to access your conference

Simply dial one of the following access numbers, then enter your PIN Code, followed by the # key.

1. To access your conference call within Australia dial one of the Local Access Numbers listed below.
   02 8047 9393 (Toll) / 1 800 093 431 (Toll Free)

2. To access your conference call outside of Australia dial **+61 2 8047 9393** or one of the International Access Numbers listed below

Country	Toll-Free	Toll

United States	1 877 788 9032	

Frequently asked questions

Can I use my conferencing account from abroad?

Of course, you can use the international access numbers list provided by Arkadin or the standard (domestic) toll number listed on your access card when travelling abroad. In some countries, you have the choice between a local toll and/or a toll-free number.

If my participants are in a country that is not listed, how do they access my conference call?

If there is no number available for the country your participants are in, you can provide your standard (domestic) toll access number. Participants would dial your country code prefix + the toll number on your access card.

Why would I provide my international participants with a country-specific toll-free number?

You would provide a country specific toll-free number to your participants if you do not want them to pay to join your conference call. When participants use the international toll-free numbers, all charges will be billed to the Moderator of the conference, which includes the local toll-free charges + ArkadinAnytime service charges.

Why would I provide my international conference call participants with a country-specific toll number?

The country-specific international access numbers provided by Arkadin will allow your participants to dial a local number and be billed with local charges, which eliminates additional long distance country-to-country charges for your participants. The moderator still pays for the ArkadinAnytime service charges.

*Participant will be placed in the entered PIN-code regardless of the access number they dialed.
